

Nemesis®

IT'S EASY TO SEE THE **ATTRACTION**

The most advanced fly killing machine in the world today

The ultimate protection from flies, wasps and other flying insects affecting food manufacturing and processing

Flies, wasps and other flying insects are more than just a nuisance. They pose a real danger to the health of customers and can cause irreparable harm to the reputation of a business.

Nemesis® is unique in offering such a comprehensive range of features to guarantee continuous hygienic, efficient protection. Fabricated from polished marine grade 316 stainless steel with stainless steel guards and grids and hard-wired circuitry, this model is splash-proof, shatterproof, draught-proof and IP44 rated. Used effectively in meat processing plants, abattoirs, dairies and farms, where steam cleaning is required, across Europe and in the USA.

- Unique transformer - reduces shattering of insects.
- 'Power on' and 'grid on' warning lights - inspection at a distance.
- Catch tray with draught deflector - keeps insects in machine.
- Spring-loaded killing grid - easy cleaning.
- 2 x 40 watt Quantum BL shatter-resistant tubes coated with Teflon® G resin for maximum attraction and significantly reduced risk of contamination from glass breakages.
- Choice of mounting options for ease of placement.
- Fully tested and independently approved for compliance to EN60331-1 and IEC 335-2-59.

MODEL NO.: NPW288CAS

 H: 44.5cm w: 67cm D: 20.5cm

 12.7Kg

 Ceiling-suspended

 Freestanding: 480m²

 Wall-mounted: 240m²

Finish:  Stainless Steel
