

# Chameleon<sup>®</sup> QUALIS

with **QUANTUM<sup>®</sup> X LED** technology

**The revolutionary UV LED fly control unit the market has been waiting for!**

Lowest power consumption, consistent with superior flying insect attraction

A bliss to service - LED tubes require replacement only once every 3 years

PestWest<sup>®</sup> LED sticky board with specially formulated adhesive

Full metal construction

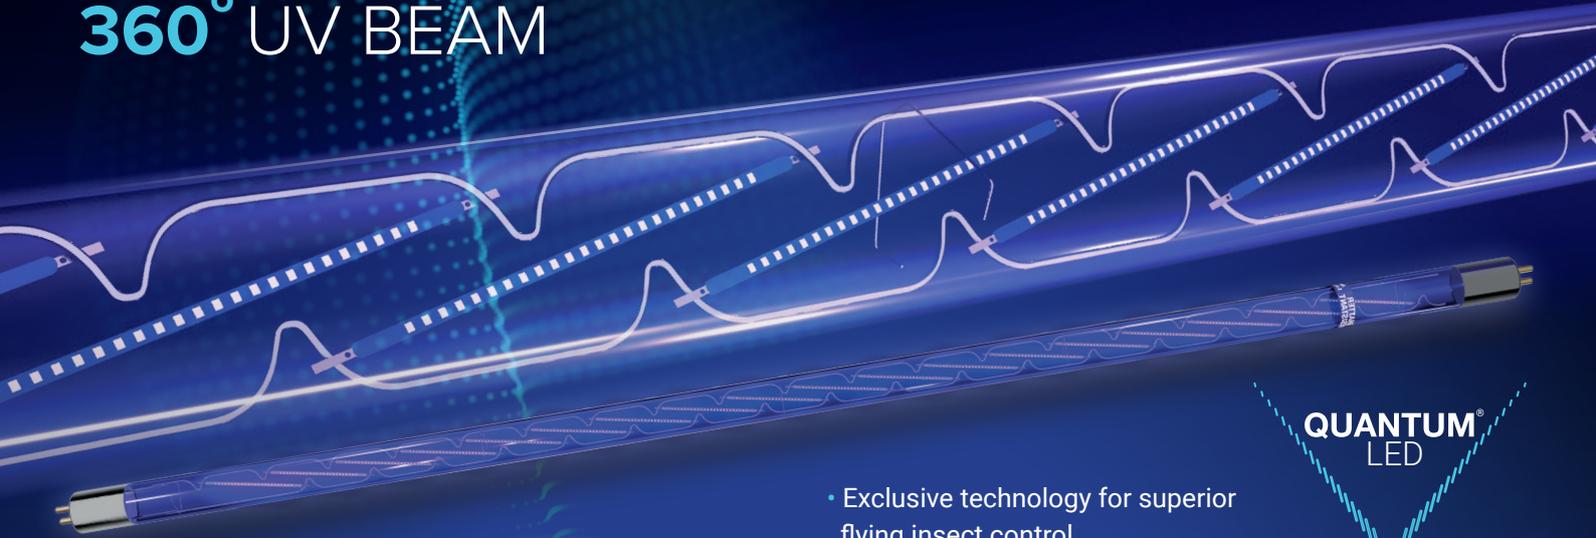

3-year guarantee<sup>(\*)</sup> and certified to the latest international legislation

RESTRICTED HARSH 120° BEAM

**QUANTUM<sup>®</sup>**  
LED

- Exclusive technology for superior flying insect control
- Lower power consumption
- Help to reduce operation cost
- Environmentally sustainable

### Why is the Quantum<sup>®</sup> X different?

- Unrivalled distribution of UVA LED light significantly improving flying insect control.
- Minimal energy consumption without any dimming – typically over 35% less than other LED technologies.
- Lower environmental impact: zero mercury content & 3-year tube lifespan.

### A unique design, lightyears ahead of the rest

- No dazzling UV spots as with traditional LED chip technology used by other manufacturers. These can be uncomfortable for people and too intense for attracting flies.
- Unique Helium LED cooling gas for maximum reliability and longer lasting performance.
- Shatterproof coating containing all elements in the event of a breakage.

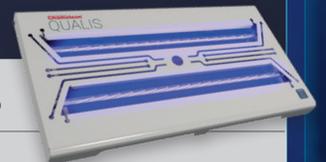

## ENERGY SAVINGS

Comparison of power consumption in Watts

\* Calculated with an average cost of electricity of 28c per kWh and 10 units per site.

## Chameleon<sup>®</sup> QUALIS

### DIMENSIONS:

H:30cm W:57.5cm D:4cm

**WEIGHT:** 3.6kg

**COVERAGE:** 90-120m<sup>2</sup>

### FINISH:

- White Coated Zintec Steel

### TUBE DATA:

- 2 x Quantum X LED tubes
- Shatterproof coating with industry compliant FEP
- Powered by a state of the art LED driver

\*excluding consumables
